

Summer4kidz12

Summer has arrived and the 'Summer4kidz' team is back with lots of new ideas for another wonderful summer school. In this summer we 'play' again at 'Summer4kidz12'! With trained staff full of appetite and love for children and summer, we organize a program for children, from June 25th to August 2nd and from August 19th to September 6th. Games, entertainment, an educational program with an alternative character, sports, use of the swimming pool, excursions and many surprises await our little friends for a creative and safe summer. 'Summer4kidz12' offers the premises and services of Play4kidz, with experienced and qualified staff especially for the activities of our summer school. Children aged 3-12 can participate in 'Summer4kidz12' and each child can choose to participate from 2-9 weeks. In case of participation for only 2 weeks, these should be consecutive.

The 'Summer4kidz12' package we offer includes:

- Creative occupation of children
- Small groups
- Qualified and experienced staff
- Breakfast, lunch and dessert
- Unlimited soft drinks
- Use of Play4kidz pool, playground and services
- T-Shirt with the 'Summer4kidz12' logo

Indicative Weekly Program

The program is configured according to the characteristics, potential, age and preferences of the children of each group. Pastry and cooking activities take place in the professional kitchen facilities of Play4kidz. Dance, music and theater are taught in separate rooms from those of the children's groups with similar equipment, while for karate the neighboring gymnasium is used where the groups go on foot. Visitors-professionals who have something special to offer the children, enrich our program, opportunistically. For any additional activities, parents are informed in time and the program is adjusted accordingly.

Food

Children are offered daily breakfast and lunch, dessert or fruit for energy and unlimited drinks to hydrate throughout the day. The meals are designed by our chefs and rotated weekly to provide energy, variety of flavors and nutrients, so that the children are well-nourished and balanced, and enjoy their food. During feeding time, children are asked to follow some series and rules of cleanliness, so that together with enjoyment, they approach the activity of feeding in a multifaceted way.
